

1. Mount strap gear (2) on 7/8" shaft (3) on right side of hitch when facing planter. Be certain that the two parts are properly matched.
2. Press counter gear (4) onto counter and secure with acorn nut. Be certain to match the correct gear with planter row spacing as shown on chart below. Mount counter on the bracket (5) as shown.
3. Attach bracket to bottom frame of planter as shown or drill hole if needed. Align counter gear (4) with strap gear (2) and secure.
4. Calibrate the counter using instructions on back of this sheet.
